

The purpose of this program

To make sure your health care lines up with **your** priorities.

© Mary Tinetti, Anand Naik, Lilian Dindo, 2017

Step 1	Discuss what matters to you	3
Step 2	Set your goals and examine how your health care lines up with your goals	8
Step 3	Make decisions about tradeoffs in your health care	14
Step 4	Talk with your health care team about your goals and preferences	17

This is an excerpt from the Patient Priorities Care patient manual, which will be released in 2018. The manual guides the member of the healthcare team working with a patient to identify their values, goals and preferences, and provides helpful tips and sample scripts. The above shows the steps in the priorities elicitation process.
